A. EXPLANATORY NOTES TO THE INTERIM FINANCIAL REPORT FOR THE QUARTER ENDED 31 AUGUST 2010

A1. Basis of preparation

This Interim Financial Report ("Report") is unaudited and has been prepared in accordance with Financial Reporting Standards ("FRS") 134 - Interim Financial Reporting and Paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities").

The Interim Financial Report should be read in conjunction with the Audited Financial Statements of the Group for the financial year ended 31 May 2010. These Explanatory Notes provide an explanation of events and transactions that are significant to the understanding of the changes in the financial position and performance of the Group since the financial year ended 31 May 2010.

The significant accounting policies and methods of computation adopted by the Group in this Report are consistent with those adopted in the most recent Audited Financial Statements for the year ended 31 May 2010 except for the adoption of the following new and revised FRSs, IC Interpretations and Amendments to FRSs and IC Interpretations which are applicable to the Group for the financial year beginning 1 June 2010 and are relevant to its operations:

Amendments to FRS 139 Financial Instruments: Recognition and Measurement
IC Interpretation 9 Reassessment of Embedded Derivatives
IC Interpretation 10 Interim Financial Reporting and Impairment
IC Interpretation 11 FRS 2 – Group and Treasury Share Transactions

The adoption of the above FRSs, amendments and interpretations do not have any significant impact on the interim financial information of the Group except for the adoption of the following FRSs as set out below:

FRS 8 – Operating Segments

The Group determined that the operating segments were the same as the business segments previously identified under FRS 114 Segment Reporting. The adoption of this Standard does not have any effect on the financial position or results of the Group.

FRS 101 - Presentation of Financial Statements (Revised)

The revised FRS 101 introduces changes in the presentation and disclosures of financial statement. The revised standard prohibits the presentation of items of income and expenses (that is 'non-owner changes in equity') in the statement of changes in equity, requiring 'non-owner changes in equity' to be presented separately from owner changes in equity. All 'non-owner changes in equity' is required to be shown in a statement of comprehensive income which can be presented as a single statement or two statements (comprising the income statement and statement of comprehensive income). The Group has elected to present the statement of comprehensive income in two statements. As a result, the Group has presented all owner changes in equity in the consolidated statement of changes in equity whilst all non-owner changes in equity have been presented in the consolidated statement of comprehensive income. Certain comparative figures have been reclassified to conform to the current period's presentation. This revised FRS does not have any impact on the financial position and results of the Group since these changes affect only the presentation of items of income and expenses.

Amendment to FRS 117 - Leases

Prior to the adoption of the Amendment to FRS 117, leasehold lands were treated as operating leases. The considerations paid were classified and presented as prepaid lease payment on the statement of financial position. With the adoption of the Amendment to FRS 117, the classification of a leasehold land as a finance lease or an operating lease is based on the extent to which risks and rewards incident to ownership lie. Accordingly, the Group has changed the classification of certain leasehold lands from operating leases to finance leases in the current quarter. This change in classification has no effect to the profit or loss of the current period ended 31 August 2010 or the comparative prior period. The effect of the reclassification to the comparative of the prior year's statement of financial position is as follows:

31 May 2010	As previously reported RM'000	Reclassification RM'000	As restated RM'000
Property, plant and equipment	172,860	50,157	223,017
Prepaid lease payment	50,157	(50,157)	-

Amendments to FRS 139 Financial Instruments: Recognition and Measurement

Prior to the adoption of FRS 139, financial derivatives are recognised on their settlement dates. Outstanding derivatives at the balance sheet date were not recognised. With the adoption of FRS 139, all financial assets and financial liabilities, including derivatives, are recognised at contract dates when, and only when, the Company or any subsidiary becomes a party to the contractual provisions of the instruments.

With the adoption of FRS 139, financial assets and financial liabilities recognised and unrecognised in the prior financial year are classified into the following categories:

Pre-FRS 139	Post-FRS 139
Long-term equity investments	Available for sale investments
Current investments	Financial assets at fair value through profit or loss
Unrecognised derivative assets	Financial assets at fair value through profit or loss
Long-term borrowings	Financial liabilities at amortised cost
Unrecognised derivative liabilities	Financial liabilities at fair value through profit or loss

The measurement bases applied to the financial assets and financial liabilities in the prior financial year were changed to conform to the measurement standards of FRS 139 in the current quarter. At initial recognition, all financial assets and financial liabilities are measured at their fair value. However, the financial instrument not at fair value through profit or loss should be measured at their fair value plus transaction costs directly attributable to the acquisition or issuance of the instruments.

Subsequent to their initial recognition, the financial assets and financial liabilities are measured as follows:

Category	Measurement basis
Financial instruments at fair value through profit or loss	At fair value through profit or loss
Loans and receivables	At amortised cost effective interest method
Available for sale investments	At fair value through other comprehensive income, unless fair value cannot be reliably measured, in which case, they are measured at cost.
Loans and other financial liabilities	At amortised cost effective interest method

All financial assets other than those classified as at fair value through profit or loss are subject to impairment test of FRS 139.

In accordance with FRS 139, the recognition, derecognition and measurement requirements are applied prospectively from 1 June 2010 by the Group. The effects of the re-measurement on 1 June 2010 of the financial assets and financial liabilities brought forward from the previous financial year are adjusted to the opening retained profits and other opening reserves as disclosed in the statement of changes in equity:

	As at 1 June 2010 RM'000
Retained profits	77,021
Effects of adopting FRS139	
- Impairment of trade receivables, net tax	(140)
As restated	<u>76,881</u>

Other than above, the significant accounting policies adopted by the Group in this Report are consistent with those used in the Audited Financial Statements of the Group for the financial year ended 31 May 2010.

B. ADDITIONAL INFORMATION PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS OF BURSA SECURITIES

B1. Review of Group's Performance

For the financial quarter ended 31 August 2010, the Group posted a revenue of RM371.9 million, a decrease of approximately 6.1% compared with RM396.2 million in the corresponding quarter last year. The sales decrease was mainly due to lower sales reported by the Industrial Chemical Division.

The Group posted a loss before tax of RM7.9 million for the quarter under review compared to RM11.6 million profit before tax in the corresponding quarter last year. This was mainly caused by the lower results posted by the Industrial Chemical Division and Media Division.

The Industrial Chemical Division posted a segmental profit RM0.4 million in the quarter under review compared to RM21.2 million a year ago. The weaker than expected recovery in the industrial chemical industry has affected the results negatively. Nevertheless, the recovery in the industrial chemical industry is expected to gain momentum and profit margin should improve accordingly. The Media Division posted a higher segmental loss of RM6.6 million compared to RM2.3 million a year ago due to acquisition of additional media rights.

B2. Material Change in the Results for the Current Quarter as Compared with the Immediate Preceding Quarter

For the current quarter under review, the Group revenue of RM371.9 is only marginally lower than RM373.5 million reported in the immediate preceding quarter. However, the Group posted a loss before tax of RM7.9 million in the current quarter compared to RM5.5 million profit before tax. The weak recovery in the industrial chemical industry has adversely affected demand for our products.

B3. Prospects

Barring unforeseen circumstances, the Directors are cautiously optimistic on the performance of the Group for remaining of the financial year. In the current challenging business environment, the Board will monitor and assess the situation closely.

B4. Variance from Profit Forecasts and Profit Guarantees

Not applicable as the Company did not provide any profit forecast and profit guarantee in respect of the current financial quarter.
