Quarterly report on results for the 1st Quarter ended 30 April 2013

B DISCLOSURE REQUIREMENTS AS SET OUT IN APPENDIX 9B OF THE ACE MARKET LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

B1 Review of performance

The ABT Group registered a total comprehensive income for the period ended 30 April 2013 of approximately RM2.3 million on the back of minor revenue mainly due to gain on disposal of Platinum Nanochem Sdn Bhd ("PNSB") to Biofutures International PLC ("Disposal") which was completed at the end of March 2013. A portion of the gain amounting to RM1.2 million is deferred pending the decision of Bursa Securities on the Company's waiver application from the requirement to seek shareholders' approval for the Disposal whilst another gain approximating RM1 million is deferred as derivative liability due to a Call Option given to the promoters of PNSB at a fixed price of £0.06.

The incubator division incurred a gain due to the disposal gain as aforementioned. The Green Technology division which includes biomass/biotechnology/biofuel registered minor sales due to sales of Betaine for sampling purposes.

As the Group is involved in incubation activities especially on high technology areas, it holds investments particularly in start-ups. In view thereof, its performance is subjected to various volatilities.

B2 Variation of results against immediate preceding quarter

	Current quarter 30 April 2013 RM'000	Preceding quarter 31 January 2013 RM'000
Revenue	52	946
Profit/(Loss) before taxation	2,315	(2,090)

The revenue in the current quarter is generated from the trading of Betaine whilst the profit in the period is from the gain on disposal of PNSB.

B3 Prospects for the current financial year ending 31 January 2014

In respect of the prospects for the current financial year ending 31 January 2014, the Group will be focusing its efforts on high technology areas especially "green" related such as the palm trunk lumber project anticipated to commence commercial operations by the third quarter of 2013. We anticipate the prospects for the year to remain challenging in view of the effects of the Euro Crisis as well as the pending terms of the Kyoto Protocol extension which will only be finalised by 2015.

Nonetheless, with concrete governmental support from the likes of the Sustainable Energy Development Authority, we believe this sector will show good prospects in the medium to long term.

B4 Profit forecast, profit guarantee and internal targets

The Group did not provide any profit forecast, profit guarantee or made public any internal targets for the period under review.

B5 Income tax expense

Certain statutory income of its incubatees are exempted from income tax pursuant to the respective capital gains, MSC status, pioneer status and foreign exempt income. As such, the effective tax rate for the Group is lower than the statutory tax rate for the current quarter and financial year to date.

B6 Group's borrowings and debt securities

The Group has no borrowings or debt securities.

B7 Material litigation

As at this reporting date, neither the Company nor its subsidiary companies are engaged in any litigation or arbitration, either as plaintiff or defendant, which has a material effect on the financial position of the Company or its subsidiary companies and the Board is not aware of any proceedings pending or threatened, or of any fact likely to give rise to any proceedings, which might materially and adversely affect the position or business of the Company or its subsidiary companies.
