For the current financial quarter ended 30 June 2019, the Group recorded revenue of RM12.357 million and loss before tax of RM0.770 million. The lower revenue is mainly due to decreases in the Construction segment and Telco segment and mitigated by the increase in revenue under the Aluminium segment. Most of the projects in the construction segment are in preliminary stages, hence lower progress billings and would only pick up pace by the 3rd quarter of the year.

The lower revenue had resulted in the loss before tax of RM0.678 million, an improvement when compared to the loss before tax of RM3.900 million recorded in the same period in 2018, which was due to the decommissioning costs for transmission sites under the Telco segment in 2018.

Construction

The Construction segment contributed 18.1% of the total revenue for the current financial quarter ended 30 June 2019. Most of the projects in the construction segment are in preliminary stages, hence lower progress billings and would only pick up pace by the 3rd quarter of the year.

Aluminium

The Aluminium segment contributed 77.6% of the total revenue for the current financial quarter ended 30 June 2019. The increase in revenue for the current year is mainly attributable to several projects ramping up for completion.

Telco

The Telco segment contributed 4.4% of the total revenue for the current financial quarter ended 30 June 2019. The decrease in revenue for the telco segment is due to lower work orders received.
