18. PROSPECTS

Despite the prevailing challenges faced by the Group within its economic and operating environment, the Board and Management remain cautiously optimistic in assessing the outlook of the Group.

While uncertainties in the market have caused serious ripple effects across all economic sectors and sentiments have turned cautious and conservative within the investment fraternity, we continue to believe in the resiliency of our business model as well as the underlying value of the reclaimed land bank of the Group. This is underscored by the Group's ability to monetise more than 955 acres of land in Melaka to-date, amounting to more than RM1.3billion in land sales being achieved.

To-date, the revenue yet to be recognised arising from several land reclamation contracts secured by the Group, amounting to approximately RM75.12million, as well as Sale & Purchase Agreements ("Land Sale SPAs") already signed of approximately RM45.31million, will ensure the Group has a stable stream of revenue of approximately RM120.43milion to be recognised in the near term.

In addition, the Group also has in excess of 64.71 acres of land bank in Melaka already reclaimed, issued with land titles and are available for immediate sale. Several large parcels of river-fronting land reclaimed by the Group in Pulau Indah, Port Klang, have also continued to garner strong interest due to their strategic location, being adjacent to the Pulau Indah Highway, and in close proximity to Westport, one of Malaysia's busiest ports. The Management is prepared to adapt to the requirements of the circumstances where necessary to ensure that some of these land banks can continue to be monetised in the near to medium term.

The Group remains confident in the strong fundamentals of its two (2) main flagship projects in Johor, namely TPMIP and PMIP, which contribute towards both industrial parks being strategic locations within the region for the development of heavy industrial activities, particularly downstream activities within the oil & gas sector.

The Group, like most other companies within the sector, is adjusting the pace of its operations to ride out the existing uncertainties and slowdown within its operating segment. However, in conserving its resources, the Group has positioned itself accordingly and will be ready to capitalise and leverage on any uptrend or opportunities that may arise once operating environment improves. We endeavour to not stay complacent, and remain vigilant towards the needs of the market, striving to innovate, adapt and create value for our customers whenever possible.

The Group is pleased to inform that on 13 December 2021, the Group had via its wholly-owned subsidiary, Pengerang Maritime Industries Sdn. Bhd., signed a Memorandum of Understanding with Shanxi Construction Investment Group Co. Ltd., Malaysian Palm Oil Board and Institute of Coal Chemistry, Chinese Academy of Sciences, for a proposed development of second generation biodiesel and biojet fuel plant in PMIP. The investment value of the proposed development, which is in line with Johor Sustainable Development Plan 2030, is expected to reach RM3billion. The Group firmly believes that the proposed development will promote local economic growth, as well as to strengthen and add more value to the Malaysian palm oil trade with higher value-added products.

24. MATERIAL LITIGATION

On 30 April 2015, BSB received a Writ of Summons and Statement of Claim dated 21 April 2015 filed by Sentosacove Sdn. Bhd. ("SSB").

SSB is alleging that BSB had breached its contractual and implied duties under an agreement ("Reclamation Agreement") which was entered into between BSB and SSB on 10 September 2010. Under the Reclamation Agreement, BSB was appointed as a contractor to carry out marine reclamation works to reclaim a total area spanning 720 acres in Daerah Klebang, Melaka. SSB is claiming for, inter alia, a Declaration that BSB had breached the Reclamation Agreement and for other consequential and ancillary reliefs.

The Group rigorously contested the alleged claims and is of the view that the SSB's claims are without merit and had filed a defence and counter claim in the High Court of Malaya at Kuala Lumpur on 15 May 2015 against SSB, Datuk Leaw Tua Choon and Datuk Leaw Ah Chye.

On 20 October 2018, the Group received a decision of the High Court in favour of the Group against SSB.

SSB filed a notice of appeal on 26 November 2018 and 22 April 2019 against the High Court's decision in dismissing its claims substantially.

On 16 November 2020, the Group announced that BSB has been served with two (2) demand letters dated 2 November 2020 ("1st Letter") and 10 November 2020 ("2nd Letter") from SSB.

24. MATERIAL LITIGATION (CONT'D)

BSB has denied all the allegations stated in the 1st Letter and 2nd Letter through its solicitor on 12 November 2020. As at to-date, there is no further action initiated by SSB relating to this matter.

As at the date of this report, the panel of Court of Appeal judges has a consensus on allowing BSB appeal. The Court of Appeal agreed with the High Court judge that termination of the Reclamation Agreement by SSB was unlawful thus SSB's appeal is dismissed with costs of RM30,000 payable to BSB by SSB, Datuk Leaw Tua Choon and Datuk Leaw Ah Chye. The costs subject to allocatur fees.

However, as the Concession Agreement between SSB and the Malacca State Government was not renewed, the Court of Appeal has set aside the High Court Order for specific performance of the Reclamation Agreement and substituted the specific performance with an order for damages to be assessed by the High Court. The assessment of damages for the unlawful termination is remitted back to High Court. The next case management to obtain further directions from the High Court is fixed on 27 June 2022.

Further, the Court of Appeal has agreed that the High Court was not functus officio when making an Order dated 1 April 2019 in relation to SSB appeal on the clarification / consequences order granted by the High Court. Since the Parties have confirmed that the Concession Agreement had expired, the Court of Appeal found that this appeal is academic and struck out this appeal and no order as to costs.

The Directors are of the opinion, after taking appropriate legal advice, that no provision for the abovementioned claim is necessary.
