18. PROSPECTS

Despite the prevailing challenges faced by the Group within its economic and operating environment, the Board and Management remain cautiously optimistic in assessing the outlook of the Group.

The health and economic crisis caused by the Covid-19 pandemic is unprecedented. Lives and livelihoods have been lost and almost all businesses have been disrupted in some ways amidst the fight against the deadly virus, and this includes the business and operations of the Group. We have seen significant changes in the overall pattern of production, consumption and trade, as well as contractions on income, spending and employment of the country.

While uncertainties in the market have caused serious ripple effects across all economic sectors and sentiments have turned cautious and conservative within the investment fraternity, we continue to believe in the resiliency of our business model as well as the underlying value of the reclaimed land bank of the Group. This is underscored by the Group's ability to monetise more than 955 acres of land in Melaka to-date, amounting to more than RM1.3billion in land sales being achieved.

To-date, the revenue yet to be recognised arising from several land reclamation contracts secured by the Group, amounting to approximately RM80.86million, as well as Sale & Purchase Agreements ("Land Sale SPAs") already signed of approximately RM14.67million, will ensure the Group has a stable stream of revenue of approximately RM95.53million to be recognised in the near term.

In addition, the Group also has in excess of 98 acres of land bank in Melaka already reclaimed, issued with land titles and are available for immediate sale. Several large parcels of river-fronting land reclaimed by the Group in Pulau Indah, Port Klang, have also continued to garner strong interest due to their strategic location, being adjacent to the Pulau Indah Highway, and in close proximity to Westport, one of Malaysia's busiest ports. The Management is prepared to adapt to the requirements of the circumstances where necessary to ensure that some of these land banks can continue to be monetised in the near to medium term.

While the global demand for oil has been significantly affected as a direct near-term consequence of the Covid-19 pandemic, we have observed that the oil market has started to see encouraging signs of rebalancing and recovery. The Group remains confident in the strong fundamentals of its two (2) main flagship projects in Johor, namely TPMIP and PMIP, which contribute towards both industrial parks being strategic locations within the region for the development of heavy industrial activities, particularly downstream activities within the oil & gas sector.

The Group, like most other companies within the sector, is adjusting the pace of its operations to ride out the existing uncertainties and slowdown within its operating segment. However, in conserving its resources, the Group has positioned itself accordingly and will be ready to capitalise and leverage on any uptrend or opportunities that may arise once operating environment improves. We endeavour to not stay complacent, and remain vigilant towards the needs of the market, striving to innovate, adapt and create value for our customers whenever possible.

23. MATERIAL LITIGATION

(a) On 30 April 2015, Benalec Sdn Bhd ("BSB"), a wholly-owned subsidiary of Benalec Holdings Berhad, received a Writ of Summons and Statement of Claim dated 21 April 2015 filed by Sentosacove Sdn Bhd ("SSB").

SSB is alleging that BSB had breached its contractual and implied duties under an agreement ("Reclamation Agreement") which was entered into between BSB and SSB on 10 September 2010. Under the Reclamation Agreement, BSB was appointed as a contractor to carry out marine reclamation works to reclaim a total area spanning 720 acres in Daerah Klebang, Melaka. SSB is claiming for, inter alia, a Declaration that BSB had breached the Reclamation Agreement and for other consequential and ancillary reliefs.

The Group is rigorously contesting the alleged claims and is of the view that the SSB's claims are without merit. In a Counter Claim Action, BSB had on 15 May 2015 filed a defence and counter claim in the High Court of Malaya at Kuala Lumpur against SSB, Datuk Leaw Tua Choon and Datuk Leaw Ah Chye as 1st, 2nd and 3rd Defendants in the Counter Claim.

23. MATERIAL LITIGATION (CONT'D)

The trial of this suit has been completed on 29 March 2018 and fixed for decision on 30 October 2018. During the Decision date, the learned Judge, substantially dismissed SSB claims against BSB in respect of the Reclamation Agreement as follows:

- (i) BSB's counterclaim for specific performance of the Reclamation Agreement was allowed;
- (ii) The learned Judge ordered SSB to pay costs of RM30,000.00 to BSB with the interest of 5% per annum on costs to be calculated from the date of judgement until the date of settlement; and
- (iii) The learned Judge also found that the termination of the Reclamation Agreement by SSB was unlawful on the basis that SSB had failed to prove fundamental breach of the Reclamation Agreement on the part of BSB which can justify the termination by SSB.

Additionally, the learned Judge substantially dismissed SSB's claim against BSB for a declaration that the Reclamation Agreement was lawful, for damages and other related relief.

With regards the High Court Judgment on 30 October 2018, SSB has filed an appeal against the Judgment and also the clarification/consequences order. The date for both hearings in Court of Appeal has yet to be fixed as the Parties are still waiting for the written grounds of judgement from High Court.
