B3. Commentary on prospects

Amidst the global economy cautiously recovering from the Covid-19 pandemic, the recent upsurge in Covid-19 cases in our country continues to impede the overall positive economic outlook. PICORP will continue to proceed with caution against the uncertain economic turmoil. The management is continuously implementing several measures to align its operations with the requirements of the new norm and to cushion the impact of the crisis to the business. These actions include the implementation of cost containment measures, upholding the social distancing and good sanitation procedures at the workplace as well as stringent health and safety protocols to ensure employee safety. The current slow mass vaccine roll-out may also hamper the early economic recovery. Nonetheless, we remain cautious on its outlook for the remaining year.
