1.1 Segments Background:

The Group is organised into two operating segments as follows based on products offered and services rendered:

- (a) The environmental monitoring, consultancy and services segment includes the provision of environmental related services in air, water, wastewater and public health.
- (b) The lab testing services segment includes the provision of environmental and food testing and analysis services.

1.2 Group and Segments Analysis

Group Analysis:

The Group reported a slight decrease in revenue by RM0.1 million as compared to the preceding year mainly due to lower revenue recorded by the lab testing services segment and higher inter-company transactions elimination. The Group reported an increased in the profit from operations by RM2.1 million as a result of higher gross profit recorded in the current financial period.

FOR THE THIRD QUARTER ENDED 30 SEPTEMBER 2023 SELECTED EXPLANATORY NOTES

B1. Performance review (cont'd.)

An analysis of the results of each segment is as follows:

a) Environmental monitoring, consultancy & services

Environmental monitoring, consultancy and services segment contributed 35% from the total Group revenue in the current year, a slight increased of 2% from the preceding year's contribution.

The segment revenue has increased by RM0.7 million or 3% as compared to the preceding year due to higher revenue generated by the Malaysia operation. The segment reported lower loss from operations by RM5.1 million due to higher gross profit recorded by both the Malaysia and Saudi operations and lower operating expenses recorded by the Malaysia operation.

b) Lab testing services

Lab testing services segment contributed 64% of the total Group revenue, equivalent to the preceding year contribution.

The segment's revenue decreased by RM0.4 million or 1% from the preceeding year revenue due to lower revenue recorded by the Indonesia's operation amounting to RM1.1 million but mitigated by higher revenue contribution by the Malaysia's operation amounting to RM0.6 million. The segment profit from operations was lower by 6% or RM0.95 million as compared to the preceding year due to higher cost recorded by both Malaysia and Indonesia operations and higher operating cost recorded by the Malaysia operation.

Overall, our loss position has improved significantly by 42% as compared to the same period last year mainly due to lower cost of business operations. We will continue to further improve by implementing our revenue growth strategies such as promoting our newly launch water treatment solutions, cost optimization vis-a-vis margin improvement. Hence, our loss position will be further improved in the final quarter of the year.

B2. Material Changes in Profit for the Current Quarter as Compared to the Results of the Preceding Quarter (cont'd)

2.1 Group and Segments Analysis

Group Analysis:

The Group's revenue has increased by RM1.4 million as compared to the preceding quarter ended 30 June 2023 contributed mainly by higher revenue recorded by the lab testing services segment. The Group's profit from operations however decreases by RM0.9 million from the preceding quarter as a results of higher losses recorded by the environmental monitoring, consultancy and services segment.

An analysis of the results of each segment is as follows:

a) Environmental monitoring, consultancy & services

Environmental monitoring, consultancy and services segment reported higher revenue by RM0.5 million contributed by higher revenue recorded by both the Malaysia and Saudi operations. The segment however, recorded higher loss from operations by RM0.7 million as compared to preceding quarter ended 30 June 2023 due to higher cost recorded in the current quarter by both Malaysia and Saudi operations.

b) Lab testing services

Lab testing services segment reported a higher revenue for the quarter contributed by Malaysia operation. The segment's profit from operations is slightly lower as compared to the preceding quarter ended 30 June 2023 as a results of lower revenue recorded by the Indonesia operation in the current quarter.

B3. Commentary on prospects

Based on the World Economic Outlook (WEO) report by International Monetary Fund (IMF) in October 2023*, the global economy is expected to moderate by 3.0% 2023 and 2.9% in 2024. The economic growth in advanced economies is predicted to soften from 2.6% in 2022 to 1.5% in 2023 and 1.4% in 2024. Concurrently, emerging market and developing economies (EMDE) are expected to experience modest growth, moving from 4.1% in 2022 to 4.0% in both 2023 and 2024. GDP projections for Malaysia are 4.0% and 4.3% for 2023 and 2024 respectively.

Malaysia's economy is expected to remain resilient despite the escalating uncertainties in the global economic landscape. Malaysia's GDP growth is projected at approximately 4.0% in 2023 and between 4.0% to 5.0% in 2024 as outlined in the Economic Outlook Report 2024 published in October 2023**. Based on quarterly advance GDP estimates***, Malaysia's economy for the third quarter of 2023 grew by 3.3 per cent as compared to 2.9 per cent in the preceding quarter. The performance was attributed to the growth in Services, Construction and Agriculture sectors.

PICORP's turnaround strategy encompasses core sector, i.e Environmental Monitoring Consultancy & Services (EMCS) driving water and wastewater treatment solutions and a new role as environmental monitoring contractor for a major oil company. In Saudi Arabia, leveraging Asma (Saudi) top Integrated Pest Management (IPM) recognition by local ministry will further fuel expansion into new markets especially Riyadh and NEOM in Tabuk Province. Our Cost optimization involves supplier contract renegotiation, a hiring freeze, and streamlining of operations, leading to reduction in expenses. Operational efficiency improves via lean management and technological adoption.

As a result, our loss position has improved significantly by 42% as compared to same period last year. We foresee that our loss position will be further improved in the final quarter of the year barring any unforeseen circumstances.
