- Maintain NEUTRAL, new MYR1.95 TP from MYR2,03, 1.5% downside, 3.9% FY20F yield. 9M19 earnings fell short of expectations. Having secured MYR1.7bn worth of new contracts in FY19, Suncon is eyeing a larger orderbook replenishment target of MYR2bn, indicating optimism for the year ahead. Its share price remained relatively flat over the past two quarters, indicating downside risk to earnings is already priced in, hence our NEUTRAL. The resumption of mega infrastructure projects in Malaysia should also present near-term re-rating opportunities.
- Dragged by lower construction billings. 3Q19 revenue of MYR402.6m was down 8.5% QoQ and 28% YoY. 3Q19 core net profit came in at MYR34.4m (+2.7% QoQ, -6.4% YoY). This brings 9M19 core net profit to MYR96.5m, representing 71% of our forecast and 68% of Street's. The miss in earnings expectation was due to optimism as to the group's overall construction activities in the quarter. We understand that the decline in construction billings was due to several reasons early stages of several ongoing projects, and persistent delays in the LRT 3 project, progressing only MYR65m in the quarter.
- 9M19 construction EBIT margin robust at 9.2%. While 3Q19 construction revenue weakened to MYR365.1m (-10% QoQ, -30.3% YoY), EBIT margin continued to show improvement up 0.1ppt QoQ to 9.2%. That said, despite 9M19 construction revenue and EBIT of MYR1.18bn and MYR108.3m declining 22.9% and 13.8% YoY, EBIT margin improved 1ppt to 9.2%.

For the precast concrete segment, 3Q19 revenue and EBIT recorded MYR37.5m (+10.7% QoQ, +12.7% YoY) and MYR0.8m (+5.1% QoQ, +>100% YoY) respectively. The improvements can be attributed to the lower contribution from previously secured lower-margin-projects, which are towards their tail end.

• Minor tweak to earnings forecast. We trim FY19F earnings by 6%, reflecting lower progress billings for certain construction projects. Nevertheless, our FY20F-21F net profit remain unchanged, as we take the view of a recovery in FY20F, premised on higher construction activities and contribution from the precast segment.

We also keep our FY19F-20F orderbook replenishment assumption of MYR1.8bn and MYR2bn. Nevertheless, our TP declines to MYR1.95 from MYR2.03 after imputing the 9M19 net cash figure. We value Suncon based on an ex-cash target P/E of 14x - in line with that of larger-cap contractors.

• Key downside risks include failure to secure new contracts, and prolonged downturns in the retail and property markets.

Valuation basis

We value the company based on FY20F ex-cash P/E of 14x, in line with larger-cap construction stocks. Sunway Construction's net cash position allows it to gear up for more jobs moving forward.

Key drivers

- Sunway Construction's earnings are backed by:
 - An outstanding order backlog of MYR5.8bn, of which >90% is from construction, which may keep the firm busy for the next three years;
 - ii. Recurring orders from its parent company.

Key risks

Upside risks include better-than-expected margins at the construction segment and new job wins coming in ahead of our estimates. Downside risks include possible cost overruns and higher material costs.

Company Profile

Sunway Construction is one of the largest construction companies in Malaysia. Apart from civil & infrastructure construction services, the company also provides the more specialised:

i. Foundation & geotechnical engineering services; ii. Mechanical, electrical & plumbing (MEP) services.

In addition, it runs a highly profitable precast concrete product manufacturing operation in Malaysia and Singapore. Aside from fulfilling local requirements, it also largely supplies hose concrete products for Housing & Development Board (HDB) projects in the island republic.
