#### Review

- Sunway Berhad's (Sunway) FY12 core profit (excluding fair value gain and gain on derivatives) came in line with our expectations at 103% of our full-year projection and 95% of consensus estimate. An interim dividend of 6.0 sen/share was declared which exceeded our dividend forecast of 4.5 sen/share.
- YoY, Sunway's FY12 core net profit down 1% YoY to RM323.9mn despite a 5% growth in revenue to RM3.9bn. This decline in core net profit was largely due to higher tax expense (+71% YoY) and minority charges (+63%). Nevertheless, on the operating level, margins expanded 2.9 ppt thanks to better product mix.
- QoQ, core net profit increased 8.5% to RM102.6mn on a stronger revenue growth of 38.3%. The three core operating divisions of Sunway, i.e. property development, property investment and construction divisions showed strong sequential revenue growth of 125.3%/13.7%/34.8% respectively have contributed to the improved performance.

#### **Impact**

We raise our FY13 and FY14 earnings forecasts by 3.0% and 2.3% respectively after adjusting progress billing assumptions. We continue to project the group to secure RM1.2bn and RM2.2bn new property sales for FY13 and FY14 respectively, and new construction jobs of RM1.1bn p.a. for FY13 and FY14.

### Outlook

- The group clinched RM580mn new sales in 4Q12, boosting its FY12 total new sales to RM1.8bn (effective: RM1.6bn, after adjusting for JV). This has exceeded the group's internal sales target of RM1.3bn. The encouraging sales in 4Q12 came mainly from its Commercial Project at Sunway Geo@ Sunway South Quay and designer suites within Sunway Velocity that have garnered strong buying interests with a take up rate of 77% and 71% respectively. The increase in sales has boosted the unbilled amount to RM2.41bn vs. RM2.06bn in 3Q, which will keep the group busy over the next two years.
- On the construction front, Sunway has obtained the entire land possession for KVMRT V4 package in June-12 but the progress work has not reached profit recognition stage (below 10% completion). Meanwhile, the work progress on Kelana Jaya LRT extension project has reached 20% completion and the group has started recognising contribution from this project in 3Q12. Going forward, the construction unit is expected to be the engine of growth with an outstanding order book (excluding in house jobs) of RM2.4bn (see Table 1).

With total 1,858 acres of undeveloped landbank in Iskandar region, Sunway is one of the largest land-owner in Johor. We are positive on Sunway's land acquisitions spree in the Iskandar region recently given it is poised to be the main growth area for Malaysia. These lands are expected to yield a combined GDV of RM30bn with a development period of over 17 years. Sunway Construction arms will also stand to benefit from these projects as it is likely be awarded civil works packages.

#### **Valuation**

 Our SOP-derived target price was revised higher to RM3.63/share from RM3.41/share previously after adjusting for balance sheet items (see Table 2). Given a potential upside of 46%, we reiterate our Buy recommendation on Sunway.
