% of Fixed Rate Borrowings	38%	43%

After proposed interim income distribution of 1.63 sen per unit for Jan-June 2021 (30 June 2020: Final income distribution of 2.38 sen per unit).

SUNWA

Financial Highlights – 4Q2021 (Cont'd)

Reported in RM'000 **Gross revenue** 4Q 103.394 2021 1.5% 4Q 104.925 2020 Net property income 40 62.348 2021 19.7% 4Q 77,605 2020 Profit before tax (realised) attributable to: 4Q 4.959 28,537 33.496 2021 Perpetual Unitholders note holders 24.7% 4Q 4 958 21,912 26,870 2020 Perpetual note Unitholders holders

Gross Revenue for 4Q2021 decreased by 1.5% or RM1.5 million compared to 4Q2020 mainly due to unrealised unbilled lease income receivable recognised in 4Q2020 amounting to RM16.9 million! Without this effect, 4Q2021 revenue was higher by 17.5% or RM15.4 million compared to 4Q2020 mainly contributed by income from the newly acquired The Pinnacle Sunway commencing 20 November 2020 and guaranteed rent from Sunway Putra Hotel, despite lower income from hotel segment due to closure of Sunway Resort Hotel for refurbishment works.

Net Property Income for 4Q2021 was lower by 19.7% or RM15.3 million compared to 4Q2020, similar to the above explanation on the unrealised unbilled lease income receivable. Without this effect, 4Q2021 NPI was higher by 2.8% or RM1.7 million compared 4Q2020. Lower increase in NPI compared to the increase in revenue mainly resulting from higher provision for doubtful debts and operating expenses.

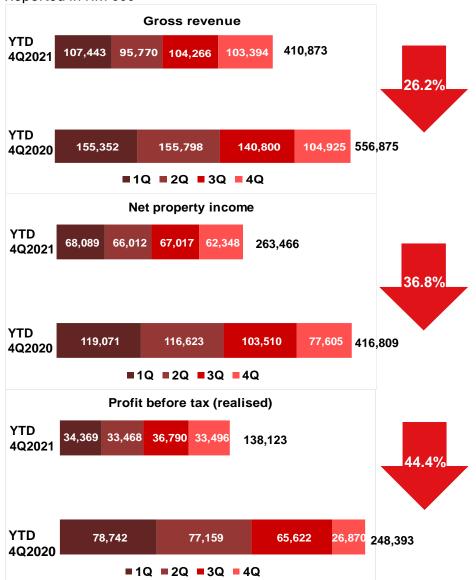

Profit Before Tax (Realised) for 4Q2021 was higher by 24.7% or RM6.6 million compared to 4Q2020 mainly due to lower finance costs.

Incremental lease income is recognised on straight-line basis over the lease period pursuant to MFRS 16 Leases. This adjustment will be accounted for in 6Q2021.

Financial Highlights – YTD 4Q2021

Reported in RM'000

Gross Revenue for YTD 4Q2021 decreased by 26.2% or RM146.0 million compared to YTD 4Q2020. Without the effect of unrealised unbilled lease income receivable, YTD 4Q2021 gross revenue was lower by 23.9% or RM129.1 million mainly due to lower revenue from retail and hotel segments impacted by the enforcement of various movement control orders as compared to the effect of MCO 1.0 in YTD 4Q2020 as well as the closure of Sunway Resort Hotel for refurbishment. Nevertheless, the drop was partially mitigated by income from the newly acquired The Pinnacle Sunway in November 2020.

Net Property Income for YTD 4Q2021 was lower by 36.8% or RM153.3 million compared to YTD 4Q2020. Without the effect of unrealised unbilled lease income receivable,¹ YTD 4Q2021 NPI was lower by 34.1% or RM136.4 million, in line with the lower revenue above and higher operating expenses.

Profit Before Tax (Realised) for YTD 4Q2021 was lower by 44.4% or RM110.3 million compared to YTD 4Q2020 in line with lower revenue and NPI, partially mitigated by lower finance costs.

1 Incremental lease income is recognised on straight-line basis over the lease period pursuant to MFRS 16 Leases. This adjustment will be accounted for in 6Q2021.

S

Statement of Comprehensive Income – Consolidated

- **1 Interest income** for YTD 4Q2021 was higher by RM2.2 million compared to YTD 4Q2020 mainly contributed by higher deposits placed with financial institutions from proceeds received through private placement.
- **2** No valuation exercise was conducted during 4Q2021, instead, the exercise shall be performed during 6Q2021 to correspond with the change in financial year end.
- **3** Manager's fees was lower by RM2.2 million YTD 4Q2021 compared to YTD 4Q2020 following the decline in net property income.
- **4 Other trust expenses** was higher by RM0.5 million YTD 4Q2021 compared to YTD 4Q2020 mainly due to the consent fee for borrowing facilities.
- **5 Finance costs** for YTD 4Q2021 was lower by RM22.3 million compared to YTD 4Q2020 mainly due to lower average interest rate.
- 6 Increase in Units in circulation post private placement which was completed on 28 October 2020.
- 7 **Distributable income per unit** represents realised income attributable to unitholders and distribution adjustments, if any.
- 8 Proposed/declared DPU was 1.63 sen for Jan-June 2021, following the change in frequency of income distribution from quarterly to semi-annually effective from calendar year 2020.

Statement of Financial Position – Consolidated

- 1 Investment properties increased by RM680.7 million pursuant to the completion of the acquisition of The Pinnacle Sunway on 20 Nov 2020 as well as on-going capital expenditure mainly for the expansion of Sunway Carnival Shopping Mall and Sunway Resort Hotel refurbishment.
- 2 Trade receivables was higher as at 30 June 2021 by RM8.0 million mainly due to higher trade receivables attributable from retail segment.
- **3 Other receivables** was lower as at 30 June 2021 primarily due to re-classification of deposit for The Pinnacle Sunway of RM45.0 million as investment properties upon completion of the acquisition.
- **4 Derivatives** of RM9.0 million was in relation to 1-year USD-MYR CCS contracts for the revolving loan (USD).
- 5 There were no **short term investment** as at 30 June 2021.
- 6 The increase in **cash and bank balances** was mainly the balance proceeds from private placement. Status of utilisation of the gross proceeds is disclosed in Note B11 of 4Q2021 Financial Report in Bursa Malaysia's website.
- 7 Unitholder's capital increased by RM706.0 million being the net proceeds from private placement.
- 8 Borrowings decreased by RM51.3 million mainly due to redemption of commercial papers of RM50.0 million.
- **9 Other payables** increased by RM81.8 million mainly due to accrued rent rebate and increase in refundable deposit.

- 1 Net cash from operating activities for YTD 4Q2021 of RM284.1 million was lower by RM60.8 million compared to YTD 4Q2020 mainly attributable to lower collection from hotel lessees and tenants of RM104.1 million, partially offset by higher refundable deposits of RM5.5 million mainly from The Pinnacle Sunway and lower cash paid for operating expenses of RM37.8 million.
- 2 Net cash used in investing activities for YTD 4Q2021 of RM438.1 million was mainly for the acquisition of The Pinnacle Sunway, progress payments for refurbishment works at Sunway Resort Hotel and expansion works at Sunway Carnival Shopping Mall, partially offset by net redemption of investment in money market instrument.
- **3** Net cash from financing activities for YTD 4Q2021 of RM430.6 million was mainly attributable to proceeds from private placement, partially offset by the income distribution paid to unitholders of RM123.0 million and interest paid of RM93.8 million.
- **4 Cash and bank balances** as at 30 June 2021 and 30 June 2020 stood at RM378.4 million and RM101.8 million respectively. The higher balance at the end of current financial period was contributed by the proceeds from private placement.

* Certain balances in the consolidated statement of cash flows have been reclassified to conform to current financial period's presentation. Further details are disclosed in Note B20 of 4Q2021 Financial Report in Bursa Malaysia's website.

Notes:

- 1. Excludes Sunway Resort Hotel which was closed for phased refurbishment commencing July 2020 for 12-24 months. Sharp decrease in Average Occupancy Rates and ADR due to challenging market conditions and restrictions on interstate, district and inbound travel, group and corporate events amidst surge in COVID-19 cases and various stages of movement control orders nationwide.
- 2. Includes The Pinnacle Sunway which was acquired on 20 November 2020.

PROPERTY DEVELOPMENT ACTIVITIES (4Q2021)

Property Development Activities

	Expansion of Sunway Carnival Shopping Mall	Sunway Resort Hotel Refurbishment
cost (including land)		RM261.0 million
Cummulative cost incurred from initiation to YTD 4Q2021	RM211.2 million	RM84.3 million
Expected completion	1Q2022~	1Q2022 ~
NLA (sg. ff.) / Room	Approximately 350,000 sq ft of additional new space.	Additional 20 new guest rooms
Property development activities against enlarged total asset value*		7.3%

- # Revised estimated Total Development Cost (TDC) of RM436 million mainly due to additional cost for piling & foundation works for future commercial development, building facade works, interfacing works, interior design, mechanical & electrical works, additional local & major infrastructure upgrading works as requested by local council, landscape, statutory and land matter cost.
- * As per paragraph 8.17 of SC Guidelines on Listed REITs, the aggregate investments in property development activities and real estate under construction must not exceed 15% of the REIT's total asset value.
- ~ Expected completion date is extended due to various halts from movement control orders.

General Outlook

- The economic prospects across countries have diverged further on the back of differing inoculation rates and countries' access to vaccines. The International Monetary Fund (IMF) maintained its global economic growth projection at 6.0% in CY2021 (*unchanged from IMF's forecast in April 2021*). The economic growth projection for emerging markets and developing economies was revised downwards, offset by an upward revision for the advanced economies.
- IMF forecasts the global economy to expand at a faster pace of 4.9% in CY2022 (*IMF's forecast in April 2021: 4.4%*), underpinned by anticipation of additional fiscal support and improved health metrics across advanced economies.
- The global economy continued to see improvements in 2Q CY2021, albeit with uneven growth across advanced and emerging market economies. Advanced economies generally achieved higher vaccination rates, facilitating the reopening of the economy as compared to emerging markets which have been disrupted by COVID-19 containment measures.
- Slower-than-anticipated vaccine rollout globally would potentially cause further virus mutation, weighing on the recovery and set back global growth rate to below the outlook's baseline.

- On the domestic front, Malaysia's gross domestic product (GDP) soared by 16.1% in 2Q CY2021 (GDP 2Q CY2020: -17.2%), boosted by continued improvement in most economic sectors, led by manufacturing and services sectors, strong external demand and improvement in domestic demand. However, the re-imposition of FMCO in June 2021 has caused a sharp deterioration in economic activities towards the later part of 2Q CY2021.
- Bank Negara Malaysia (BNM) has trimmed Malaysia's gross domestic product (GDP) growth projection from 6.0% - 7.5%, to 3.0% - 4.0% in CY2021. The revision in Malaysia's GDP growth in CY2021 was necessitated by the reimposition of total lockdown nationwide in June 2021, which was expected to cause significant business disruptions and private consumptions.
- Domestic economic growth in the 2H CY2021 are expected to be driven by strong global demand with major trade partners, continued global tech upcycle, rapid vaccination rate to facilitate reopening of economic activities, ongoing fiscal and monetary policies to support businesses and households and continuation of large-scale infrastructure projects. That said, BNM cautioned of anticipation of slow improvement in services sector, particularly consumer and tourism-related activities.

- The government has introduced the National Recovery Plan (NRP), a four-phase exit strategy from the COVID-19 crisis, which is contingent on three core indicators, that is, symptomatic admission cases, bed utilisation rate in intensive care unit (ICU) wards and inoculation rate.
- The speed to achieving mass vaccination rate coupled with ability to contain the infection rate are crucial parameter for the economic activities to progress to Phase 3 and Phase 4 by 4Q CY2021.
- Headline inflation trended higher in 2Q CY2021, driven by the transitional base effect from low base effect from low fuel prices and lapse in impact from electricity tariff rebates. For CY2021, headline inflation is expected to average between 2.0% and 3.0%. Underlying inflation, as measured by core inflation, is expected to hover between 0.5% and 1.5%.
- Headline inflation increased by 3.4% in June 2021 (May 2021: 4.4%) on the back of lower base effect in the preceding year in the Transport, Housing, Water, Electricity, Gas and Other Fuels and Food and Non-Alcoholic Beverages categories. Underlying inflation, as measured by core inflation, fell to 0.7% in June 2021 (May 2021: 0.8%).

- The Monetary Policy Committee (MPC) of BNM has maintained the Overnight Policy Rate (OPR) at 1.75%, consistent with BNM's accommodative policy stance to support the economic activities amidst heightened economic uncertainties during the various phases of NRP and prolonged duration of the pandemic.
- The government announced the PEMULIH fiscal stimulus package in June 2021, which consists of various relief measures amounting to RM150 billion. The government has collectively announced 8 stimulus packages worth RM225 billion since the first movement control order (MCO) in March 2020. PEMULIH package is also aimed to accelerate the pace and rate of the National Vaccination Programme and to support the recovery path under the NRP.
- Sunway REIT registered encouraging recovery in its business performance in April and May 2021. However, implementation of Full MCO (FMCO) in June 2021 had thwarted the recovery on the back of massively scaled-down business activities for the retail and hotel segments during the lockdown period.

- The Manager maintains a cautious outlook for the remaining period in FP2021 due to the uncertainties surrounding the success in containing the COVID-19 cases in Malaysia, political stability and heightened macroeconomic headwinds.
- Sunway REIT continues to place high priorities in:
 - cost containment and cash preservation
 - supporting retail tenants to ensure business sustainability and maintaining healthy occupancy rates / managing attrition rates
 - o explore asset acquisition and mergers and acquisitions opportunities
 - vaccination for its front-facing employees
 - extensive safety measures for shoppers, tenants and employees to ensure minimal business disruptions and prepare ahead for "revenge spending" in the near term
 - o acceleration of innovation / digitalisation initiatives

Retail Segment

- Retail Group Malaysia revised its retail sales growth to between 1% and 2% in CY2021, from an earlier forecast of 4%, on the back of the uncertainties surrounding the of COVID-19 and stricter containment measures during the lockdown period.
- The Malaysian Institute of Economic Research (MIER) Consumer Sentiment Index (CSI) declined to 64.3 points in 2Q CY2021, from 98.9 points in 1Q CY2021. The sharp deterioration was triggered by the implementation of a total lockdown nationwide which has led to concerns of deterioration in finances and weakened income and employment outlook.
- The Retail segment was adversely impacted during the implementation of total lockdown in June 2021 on the back of massively scaled-down operations. During Phase 1 of NRP, retail malls are restricted to only provision of essential product and service offerings, which has resulted in a significant decline in footfall.

Retail Segment

- Under the PEMULIH package, the government continued to assist to reduce the burden of businesses in managing operating costs through the extension of electricity tariff rebate to December 2021 and wage subsidy programme for a period of four months.
- The Retail Industry Vaccination Program (RiVAC) was introduced in July 2021, a public-private strategic cooperation aimed to accelerate the vaccination rate amongst workforce in the retail sector.
- The government lifted the restrictions for 11 types of economic activities for states under Phase 1 and 2 of the NRP with effect from 16 August 2021, subject to achieving 50% vaccination rate amongst the workforce. The relaxation in the containment measures is expected to gradually improve the retail footfall and retail sales in the malls.
- The Manager remains cautious on the outlook for the retail segment for the remaining period in FP2021 on the back of headwinds confronting the retail segment. The Manager is proactively striving towards vaccinating its front-facing workforce to prepare ahead for "green bubbles" malls.

Hotel Segment

- The Malaysian Association of Hotels (MAH) has reported an average occupancy rate of 20% for hotels in Malaysia, on the back of persistently high daily COVID-19 cases and strict restrictions which constrict the recovery of the tourism industry. Since the start of MCO in March 2020, MAH reported that approximately 120 hotels that have closed (on permanent or temporary basis) in Malaysia.
- MAH forecasted that the average occupancy rate for the hotels in Malaysia to hover around 28% by 4Q CY2021 upon achieving higher vaccination rate which may lead to re-opening of interstate border travels. In all, the average occupancy rate in CY2021 is anticipated to remain subdued at 23%, which the occupancy rate was partially contributed by hotels which are designated as quarantine hotels.
- In the absence of international tourism activities in CY2021, the hotel industry relies on domestic tourism and business travelers, which are contingent on the relaxation of inter-district and inter-state travels. Meanwhile, meetings, incentives, conference and events (MICE) activities are constricted as part of the endeavour to contain the infection rates.

Hotel Segment

- Under the PEMULIH stimulus package, the government has extended a 10% electricity tariff discounts to affected economic sectors and waiver of tourism tax and services tax for hotel operators until 31 December 2021.
- The Manager expects the hotel segment to remain challenging on the back of stringent COVID-19 containment measures and restriction of domestic and international travel borders.

Office Segment

- The implementation of the CMCO in early March 2021, followed by FMCO in June 2021, where only essential services were allowed to operate, has weighed on the nascent economic recovery. Businesses are required to continue with the implementation of rotational schedules and work from home (WFH) policies.
- Moving forward, the demand for office space are expected to evolve to cater for WFH, work from anywhere (WFA), rotational schedules coupled with social distancing requirement under the new normal.
- The office space is Malaysia may potentially benefit from the relocation of multinational companies (MNCs) or outsourcing of services to Malaysian companies which are able to operate at relatively lower costs.
- Taking into consideration of the evolving trend, office building owners are also exploring opportunities to repurpose under-utilised office spaces to flexible offices, shared meeting spaces, smart commercial hubs incorporating latest technology settings.
- The Manager expects the office segment to register stable performance, backed by new income contribution from The Pinnacle Sunway and relatively stable occupancy rates.

Empowering Businesses • Curating Experiences • Enriching Lives

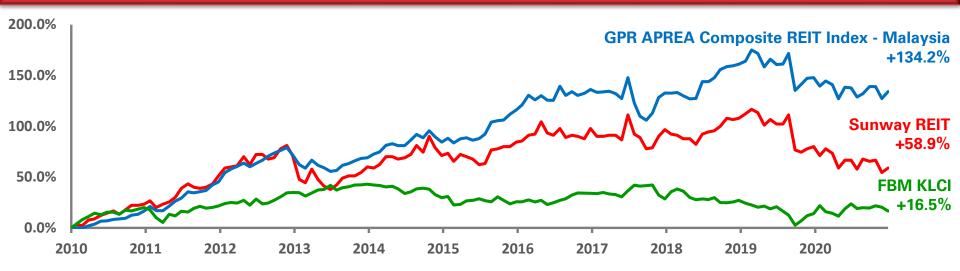

Industrial & Others Segment

- The manufacturing sector in Malaysia expanded by 26.6% in 2Q CY2021 (1Q CY2021: 6.6%) on the back of robust external demand for electronics and electrical (E&E) products. The sector is anticipated to remain resilient amid the continued global tech upcycle and recovery in global growth.
- Malaysia's Industrial Production Index (IPI) recorded a positive growth of 1.4% in June 2021 underpinned by an expansion in Mining (10.3%), while Manufacturing and Electricity index fell by 0.2% and 4.8% respectively. The main sub-sectors contributing to the manufacturing index were the growth in Petroleum, Chemical, Rubber & Plastic products (19.0%) and E&E products (8.4%), while other subsectors contracted.
- The Purchasing Managers' Index (PMI) stood at 40.1 and 39.9 in July and June respectively, a drop from 51.3 in May, indicating a contraction sign in manufacturing activities and decline in business conditions hit by the ongoing COVID-19 stricter containment measures. The output and incoming orders were softer and prolonged duration of the pandemic remains as the major downside risk to the outlook for the year ahead.
- The Manager continues lookout for yield-accretive assets in this segment backed by the long-term strong fundamentals of the industrial sector, supported by the growing demand of high-value manufacturing and logistics sector.

APPENDIX: PROPERTY PERFORMANCE (402021)

RETAIL PROPERTIES – Sunway Pyramid Shopping Mall

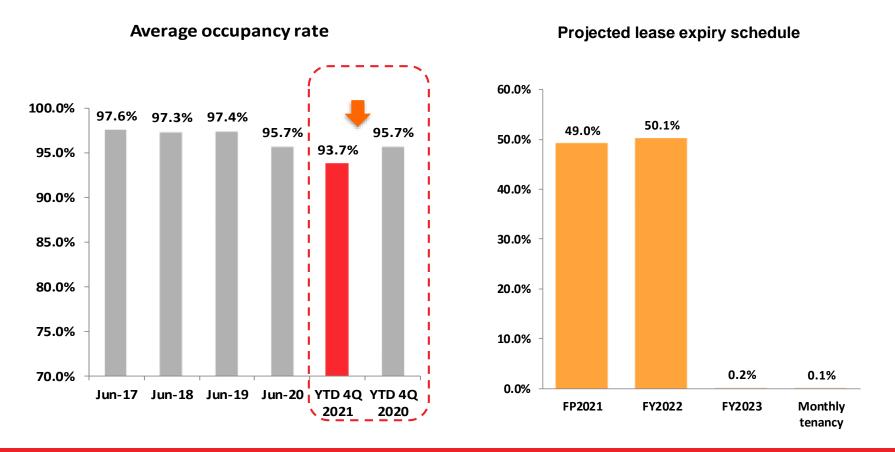

YTD 4Q2021 average occupancy rate at Sunway Pyramid Shopping Mall was relatively stable at 96.7% (YTD 4Q2020: 97.6%), where the marginal reduction was due to fit-out period for new tenants, despite the challenging market conditions amidst the surge in COVID-19 cases and various stages of movement control orders.

Based on the total net lettable area (NLA) of 851,038 sq. ft. due for renewal in FP2021, a total of 211,033 sq. ft. equivalent to 24.8% of total space due for renewal, was renewed or replaced YTD 4Q2021.

Note: FP2021 is based on 18-month period from 1 July 2020 to 31 December 2021 due to change in Financial Year End 2021 from 30 June 2021 to 31 December 2021.
