- The Group posted revenue of RM74.85 million, an increase of 14% or RM9.23 million compared to the corresponding period attributable to higher revenue from all the business segments.
- The increase in revenue in the water treatment, supply and distribution segment was primarily due to higher metered sales and electricity and chemical rebates from the Sungai Selangor Water Treatment Plant Phase 1 ("SSP1") operations due to higher electricity and chemical cost in the current quarter. The higher electricity cost is mainly due to Imbalance Cost Pass-Through ("ICPT") surcharge imposed by Tenaga Nasional Berhad ("TNB") with effect from 1 February 2022. Apart from that, the increase in the Group revenue was also contributed by the toll business segment on account of higher Average Daily Traffic ("ADT") as well as contribution from the Rasau Projects (referred to in Note B1) secured from Pengurusan Air Selangor Sdn. Bhd in the previous quarter.
- In line with higher revenue, the Group registered a higher gross profit by 11% or RM2.92 million.
- PBT saw an increase by 2% or by RM0.32 million to RM17.04 million. The higher PBT was attributable to higher fair value measurement on the Group's investments designated at fair value through profit or loss ("**FVTPL**") and lower administrative expenses. However, the higher PBT was impacted by lower net returns from interest income, dividend and net gain on redemption from investments designated at FVTPL due to reduction in cash reserves as well as share of losses from associates.
- Profit for the period was lower by 16% or by RM2.26 million attributable to higher tax expense during the financial period due to expiry of tax waiver enjoyed by Grand Saga Sdn Bhd ("Grand Saga") on 31 December 2021.
- EPS decreased by 13%, reflecting lower profit attributable to shareholders of the Company.
- The Board is pleased to declare a first interim single-tier dividend of 1.65 sen per ordinary share amounting to approximately RM33.26 million in respect of the financial year ending 31 December 2022 to be payable on 30 June 2022.

A12 - Operating Segments (continued)

(i) EBITDA is defined as earnings before finance costs, taxation, depreciation and amortisation (and excludes share of results of associates and joint venture).

(ii) EBDA is defined as earnings before depreciation and amortisation.

(iii) CAPEX is defined as capital expenditure based on the Group's proportionate share on capital expenditure incurred for the financial year.

Notes

- 1. The Group monitors the performance of its business by four main business divisions namely water treatment, supply and distribution, waste management, construction and toll highway. Others refer to investment holding and other non-core businesses.
- 2. The revenue and profit performance represent the Group's proportionate share of interest in each of the subsidiaries (instead of full consolidation) and includes a proportionate share of the interest of joint ventures or associates (instead of being equity accounted). The total is then reconciled to the revenue and profit performance in the Condensed Statements of Comprehensive Income. This is the measure reported to the chief operating decision makers for the purposes of resource allocation and assessment of segment performance.
- 3. The income statement in the waste management division excluded the fair value measurement adjustments made at the Group level. This is to better assess the operational performance of the division. The segmental results (including the calculation of EBITDA and EBDA), are solely from the concession business, after the proportionate deduction of dividends on cumulative preferences shares held by parties other than the Group.

- # approximate, to the nearest digit
- (a) The Group's total assets dropped by 4% or approximately RM79.22 million mainly due to lower investments designated at FVTPL, cash and bank balances of approximately RM72.27 million principally due to the dividend payments to shareholders, repayments of the Islamic Medium-Term Notes ("IMTN") under a IMTN (Sukuk) Programme issued by Cerah Sama Sdn Bhd ("Cerah Sama"), interest payments and payments to trade and other payables during the financial period. In addition, the carrying amount of intangible assets reduced by approximately RM7.12 million due to amortisation charges.
- (b) Total liabilities declined by 7% or approximately RM57.46 million mainly due to lower trade and other payables primarily from the scheduled debt repayments made by Sungai Harmoni Sdn Bhd ("SHSB") to its trade creditors amounting to RM16.98 million and lower accrued interest as at the end of the financial period of RM2.73 million (31 December 2021: RM7.67 million). Total borrowings also saw a reduction on account of redemption of the third tranche of the IMTN of RM30.00 million.
- (c) Total shareholders' equity was lower by 2% or about RM21.76 million in line with dividends paid to shareholders of the Company mitigated by profit recorded for the financial period. Correspondingly, the net assets per share stood at 43.76 sen compared to 44.89 sen as at 31 December 2021.

For the current quarter, the Group recorded revenue of RM74.85 million, an increase of RM9.23 million from RM65.62 million in the corresponding quarter. The increase in the revenue was attributable to higher revenue from all the business segments. SSP1 operations, the sole-source of revenue for the water treatment, supply and distribution segment, recorded higher metered sales as well as higher electricity and chemical rebates due to higher electricity and chemical cost during the current quarter. The higher electricity cost was due to ICPT surcharge imposed by TNB with effect from 1 February 2022.

The higher Group revenue also benefitted from higher ADT recorded at the Grand Saga highway as well as contribution from the new projects secured from Pengurusan Air Selangor Sdn. Bhd. in the previous quarter to develop two packages under Phase 1 of the Sungai Rasau water treatment plant and water supply scheme. The projects are (a) Design and Build of Proposed Rasau Treated Water Pumping Station, Treated Water Pumping Mains to Existing Bukit Lipat Kajang Reservoirs, Distribution and Associated Works (Package 2); and (b) Design and Build of Proposed New Bukit Lipat Kajang Booster Station, Reservoirs and Associated Works (Package 3) (collectively referred to as the "**Rasau Projects**") with a total contract sum of approximately RM896 million.

Part B – Review of Income Statement (continued)

(a) <u>Current Quarter vs. Preceding Year's Corresponding Quarter (continued)</u>

In line with the higher revenue, the Group registered an increase in PBT of RM17.04 million compared to RM16.73 million in the corresponding quarter. The higher PBT was mainly attributable to the following: -

- (a) lower administrative expenses in the current quarter arising from recognition of expected loss allowance on trade and other receivables and amount due from contract customers of RM0.34 million, as well as reversal of gain on modification on trade payables of RM0.94 million pursuant to MFRS 9 Financial Instruments in the corresponding quarter as disclosed in Note B4; and
- (b) higher fair value gain of RM1.04 million from mark-to-market valuation of the Group's investments designated at FVTPL during the current quarter as disclosed in Note B4.

However, the increase in PBT in the current quarter was mitigated by share of losses from an associate, SWM Environment Holdings Sdn Bhd ("SWMEH"), as well as lower net returns of RM0.97 million (Q1FY21: RM2.09 million) from interest income, dividend and net gain on redemption from investments designated at FVTPL.

Water treatment, supply and distribution

The division's operating revenue recorded an increase from RM42.12 million to RM45.22 million due to higher metered sales of RM36.86 million (Q1FY21: RM35.79 million) and electricity and chemical rebates of RM8.36 million (Q1FY21: RM6.32 million) in the SSP1 operations.

The metered sales and the average million litres per day ("MLD") of metered sales recorded in SSP1 were as follows:-

SSP1	Q1 - 2022	Q1 - 2021	Variance (%)
Metered Sales (million m ³)	89.91	87.30	↑ 3.0
Number of billing days	90	90	
Average MLD	999	970	↑ 3.0

In line with the increase in revenue, the segment operating profit also shows an increase to RM15.67 million from RM14.51 million recorded in the corresponding quarter. The higher operating profit in current quarter was also due to reversal of gain on modification on trade payables recognised in corresponding quarter of RM0.94 million. Higher profit was however impacted by lower net returns from interest income, dividend and gain on redemption from investments designated at FVTPL of RM0.23 million (Q1FY21: RM1.79 million) and higher electricity and chemicals costs of RM19.41 million (Q1FY21: RM16.86 million).

Construction

The construction revenue for the current quarter was higher by RM3.85 million as compared to the corresponding quarter mainly from the Rasau Projects and from an on-going project i.e., Proposed Construction and Completion of 76ML RC Reservoir R4 and Related Ancillary Works at Cyberjaya Flagship Zone, Mukim Dengkil, Daerah Sepang, Selangor Darul Ehsan. In line with increase in revenue, the segment recorded an operating profit as compared to an operating loss in the corresponding quarter. In the corresponding quarter, the division recorded a higher provision of expected loss allowance pursuant to MFRS 9.

Part B - Review of Income Statement (continued)

(a) <u>Current Quarter vs. Preceding Year's Corresponding Quarter (continued)</u>

Toll highway - Subsidiary

Average Daily Traffic	Q1 - 2022	Q1 - 2021	Variance (%)
Grand Saga Highway	139,940	117,925	↑ 18.7

Revenue contribution from Grand Saga, was higher by RM2.27 million as compared to the corresponding quarter due to higher ADT by 18.7%. Toll collections came in at RM16.93 million (Q1FY21: RM14.38 million) whereas government compensation was recorded at RM3.67 million (Q1FY21: RM3.95 million). In line with higher revenue, the segment registered higher operating profit by RM1.22 million as compared to the corresponding quarter. However, the operating profit was impacted by higher amortisation of intangible assets of RM3.73 million (Q1FY21: RM3.04 million). There were no significant variations in operating and other costs.

Toll highway - Share of results of joint venture

ADT	Q1 - 2022	Q1 - 2021	Variance (%)
Grand Sepadu Highway	82,689	79,787	1 3.6

In line with higher ADT by 3.6%, the Group's share of results in Grand Sepadu (NK) Sdn Bhd ("Grand Sepadu") was marginally higher by RM0.15 million as compared to the corresponding quarter whereby the company registered a revenue of RM12.35 million (Q1FY21: RM12.24 million). The financial performance of the company also benefitted from lower financing costs of RM1.54 million (Q1FY21: RM1.91 million) and higher other income of RM0.34 million (Q1FY21: RM0.21 million). However, share of results was mitigated by, amongst others, higher amortisation of intangible assets of RM3.55 million (Q1FY21: RM3.34 million).

Waste management - Associate

The Group's share of results of associates is mainly contributed by SWMEH. The Group's share of losses from SWMEH was RM2.85 million as compared to a share of profit of RM2.08 million in the corresponding quarter due to lower PAT recorded by SWMEH and higher adjustments made by the Group of RM59.14 million (Q1FY21: RM48.05 million) to SWMEH's PAT due to higher deduction of dividends on cumulative preferences shares held by parties other than the Group commencing this quarter. At SWMEH's company level, the revenue from both solid waste collection and public cleansing services was higher by 3.6% compared to the corresponding quarter mainly attributable to handing over of new areas by its customer. Nevertheless, the company recorded a lower PAT at RM51.01 million as compared to RM53.99 million mainly due to higher provision for loss allowance on receivables, finance costs and taxes in the current quarter. However, this was offset by lower depreciation due to certain assets having been fully depreciated.

The Group recorded an increase in revenue by RM2.12 million from RM72.73 million to RM74.85 million mainly due to higher contribution from water treatment, supply and distribution segment as well as construction business. However, the increase was impacted by lower contribution from toll business. The Group PBT increased in line with the higher revenue achieved. However, the higher PBT was impacted by, amongst others, share of losses from associates, lower net returns of RM0.97 million (Q4FY21: RM1.80 million) from interest income, dividend and net gain on redemption from investments designated at FVTPL in the current quarter, as well as write-back of over-provision of expenses in the preceding quarter.

The water treatment, supply and distribution division recorded higher operating revenue comprising metered sales of RM36.86 million (Q4FY21: RM36.60 million) and electricity and chemical rebates of RM8.36 million (Q4FY21: RM6.58 million). The metered sales and the average MLD of metered sales recorded in SSP1 operations were as follows:-

Metered Sales (million m ³)	89.91	89.27	↑ 0.7
Number of billing days	90	92	
Average MLD	999	970	1 3.0

Although revenue saw an increased by RM2.05 million, PBT was higher by RM4.17 million on account of a provision for loss allowance on other receivable of RM0.71 million and higher rehabilitation expenditure of RM6.89 million (Q1FY22: RM3.28 million) incurred in the preceding quarter.

Part B – Review of Income Statement (continued)

(b) <u>Material Change in Financial Performance for the Current Quarter Compared with Preceding</u> <u>Quarter (continued)</u>

The construction division's revenue was higher as compared to preceding quarter as the division started to record contribution from the Rasau Projects. Nonetheless, the PBT for the previous quarter was higher due mainly to the upward revision of the construction revenue from the Mengkuang Dam and Langat 2 - Package 7 Balancing Reservoir projects which had been completed.

For Grand Saga Highway, revenue contribution decreased by RM0.88 million due to drop in ADT by 1.6% as a result of the festive holidays in the current quarter. Despite the slight reduction in the ADT, profit contribution has increased by RM3.83 million mainly due to lower repair and maintenance expenses of RM0.35 million (Q4FY21: RM1.41 million) and amortisation of intangible assets of RM3.73 million (Q4FY21: RM5.66 million). As for Grand Sepadu Highway, the share of results for this quarter was higher mainly attributable to lower repair and maintenance expenses of RM0.31 million (Q4FY21: RM1.95 million), whilst the ADT was almost unchanged over the two quarters.

The ADT recorded in both Grand Saga Highway and Grand Sepadu Highway were as follows:-

ADT	Q1 - 2022	Q4 - 2021	Variance (%)
Grand Saga Highway	139,940	142,197	↓ 1.6
Grand Sepadu Highway	82,689	82,725	Not significant

The Group's share of losses from SWMEH was RM2.85 million as compared to a share of profit of RM0.61 million in the corresponding quarter due to higher adjustments made by the Group of RM59.14 million (Q4FY21: RM48.78 million) to SWMEH's PAT due to higher deduction of dividends on cumulative preferences shares held by parties other than the Group commencing this quarter. At SWMEH's company level, the revenue from both solid waste collection and public cleansing services was higher by 0.6%. The company recorded a higher PAT at RM51.01 million as compared to RM50.53 million.

Part C – Review of Statement of Cash Flow

	<u>3 Months ended</u>	3 Months ended	Variance
	<u>31 Mar 2022</u>	31 Mar 2021	(%)

Net cash from investing activities	68,263	52,343	1 30
Net cash used in financing activities	(73,368)	(79,888)	↓ 8

Net cash from operating activities was lower by RM4.17 million primarily attributable to the lower receipt from trade receivable in Taliworks (Langkawi) Sdn Bhd and lower debt repayments made by SHSB to its trade and other payables as compared to corresponding quarter.

Net cash from investing activities was higher by RM15.92 million primarily due to the higher net proceeds from redemption of investments designated at FVTPL as compared to corresponding quarter.

Net cash outflow from financing activities was lower by RM6.52 million mainly due to lower repayment of interest and dividends payment to non-controlling interests by a subsidiary as compared to corresponding quarter.

B2 – **Prospects**

The profitability of the Group is largely driven by the performance of the water treatment, supply and distribution from the SSP1 operations and the toll divisions as these segments contribute the bulk of the profits and cash flows to the Group. Nevertheless, the Group would see significant contribution from the Rasau Projects as well as contribution from the renewables division with the completion of the acquisition of major economic stakes in four solar projects subsequent to the financial period.

The cash flow position of the Group remains relatively strong from cash generated from the water treatment, supply and distribution business as well from the toll operations. Together with the available cash reserves in the Company, this has enabled the Company to declare dividends to its shareholders. Payments received by SHSB have been prompt and this ensures that SHSB is able to stream dividends to the Company whilst meeting its payment obligations. Demand for treated raw water is expected to remain robust for 2022.

In the toll highway division, revenue from toll collections is expected to improve with higher ADT as the country moved to the endemicity stage commencing April of this year. Economic activities are expected to further pick up from the previous quarter with all business sectors being allowed to operate. However, it should be noted that with the lapse of tax waiver period enjoyed by Grand Saga on 31 December 2021 arising from the Fourth Supplemental Concession Agreement entered between the Government of Malaysia and Grand Saga (referred to in Note 45 to the Audited Financial Statements 2011), the statutory income generated from the company will be taxable commencing this financial year.

In the waste management division, SWMEH registered higher revenue from both solid waste collection and public cleansing services as well as lower operating expenditure. This was mainly from increasing areas to be serviced and lower depreciation charges from assets reaching their lifespan. SWMEH is currently in discussion for a second cycle tariff review with the Federal Government under the terms of its concession agreement. The discussions are still on-going.

In the construction segment, the Group has commenced to recognise revenue and profit contribution from the Rasau Projects with the bulk of the revenue and profit recognition to be in 2023 and 2024. This will boost the financial performance of the Group over the next three years from the construction activities.

With the completion of the acquisition of the majority economic interest in four solar projects in April 2022 as announced to the stock exchange, the Group will see contribution from the renewables division commencing the second quarter of this year. The Group is working to complete the acquisition of the remaining minority economic interests in the following weeks. Efforts are currently being made to integrate the solar operations into the Group including enhancing existing cost efficiencies and streamlining the operations.

The Group will continue with its strategy to focus on mature operational cash-generating utilities/infrastructure businesses with a view of generating new income stream and provide a recurring and stable source of cash flow to the Group to support the Company's Dividend Policy.
